

# Local Action Plan of Castelló

Fourth project meeting Street Support Project

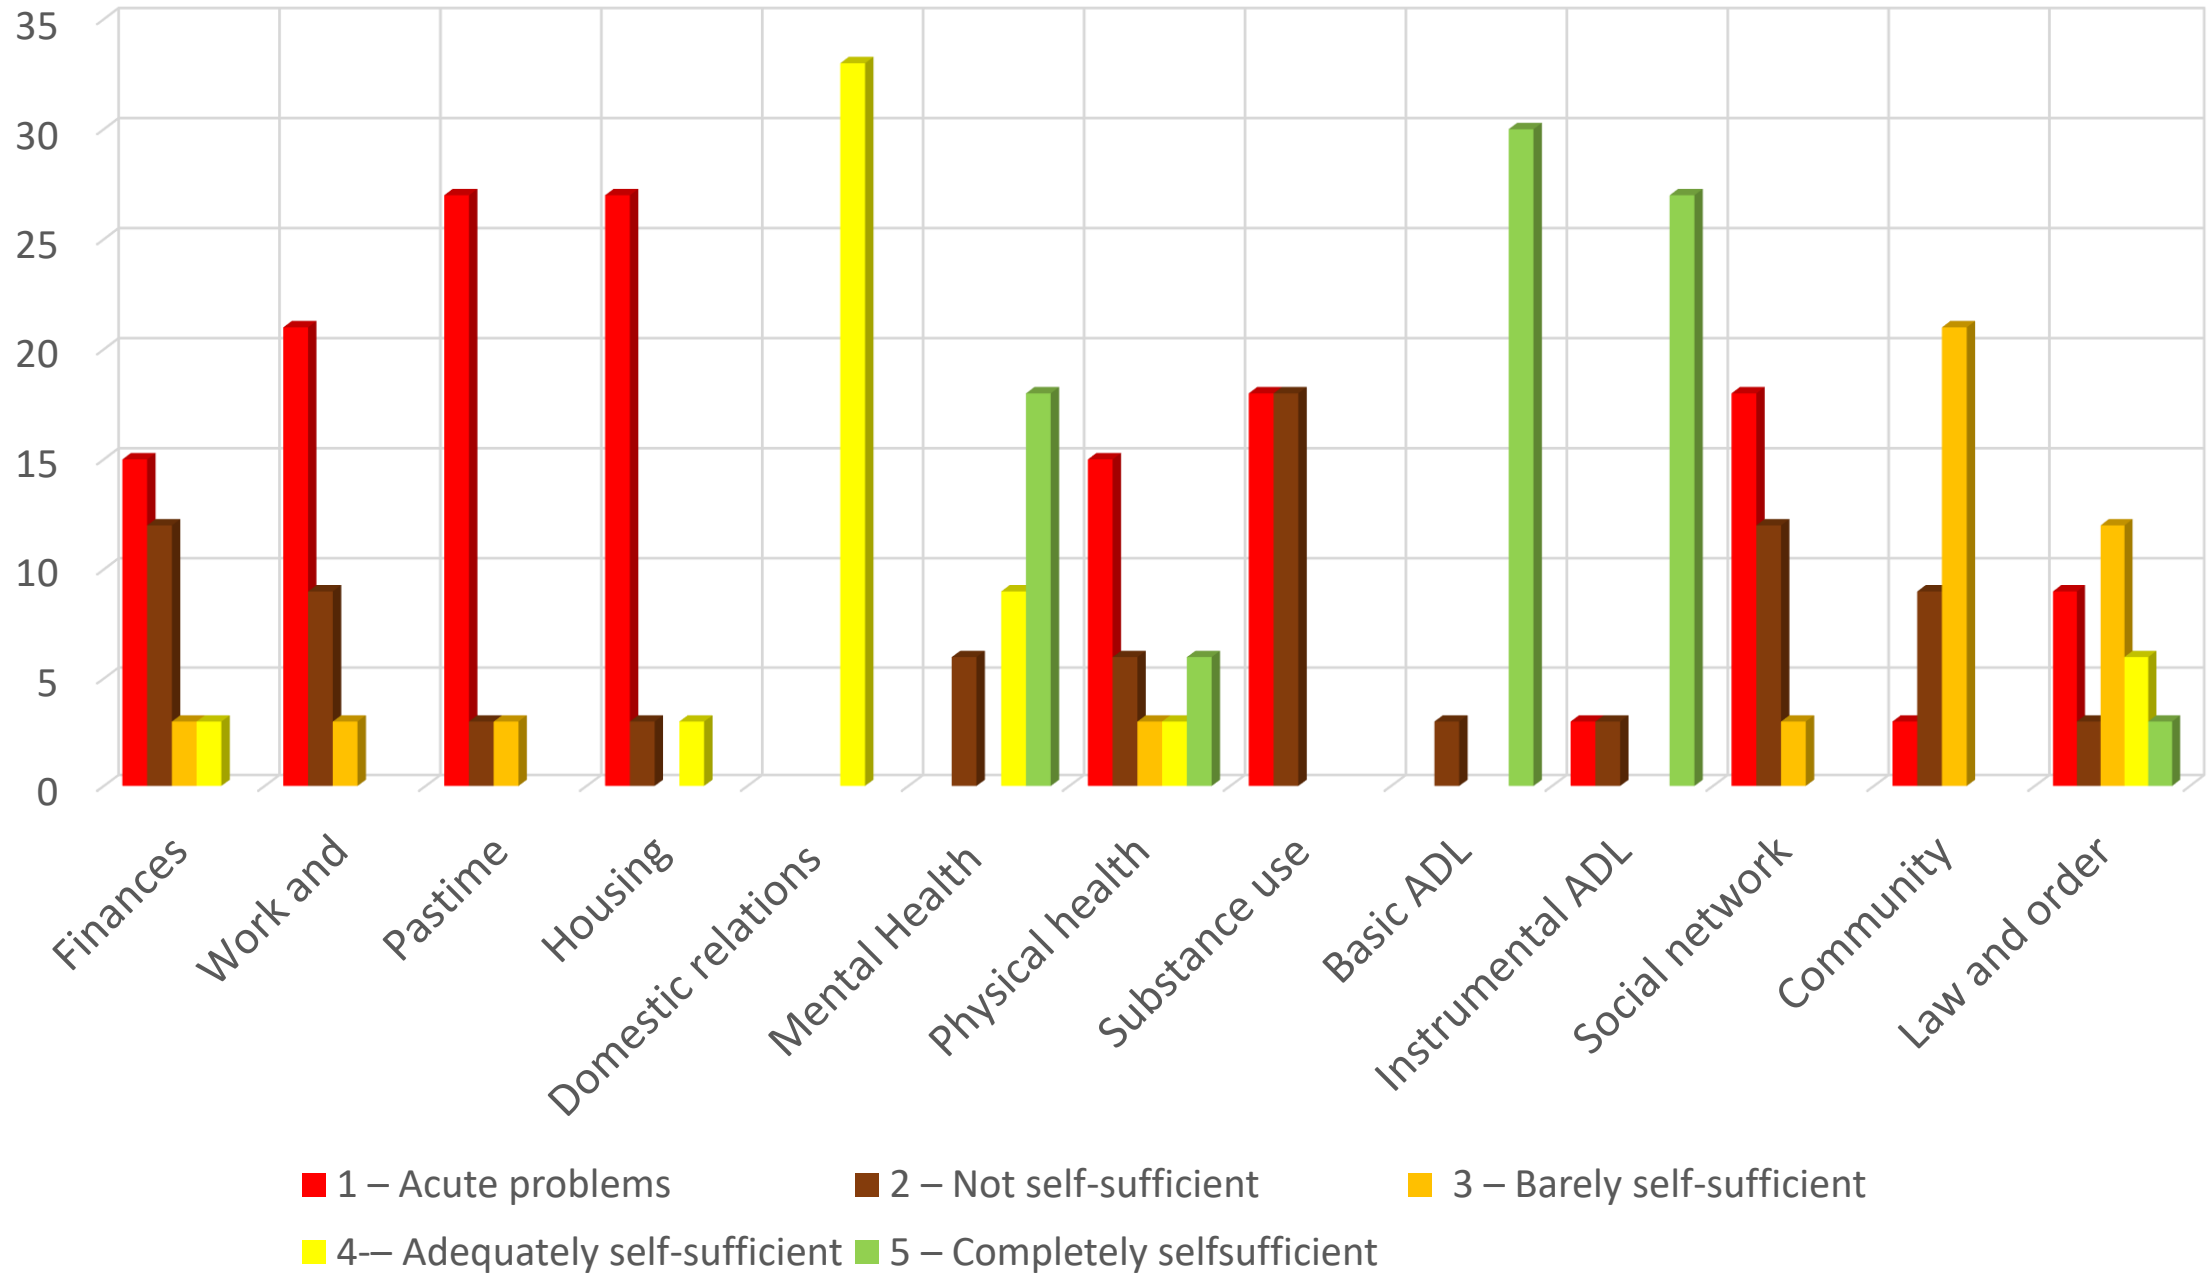

Progress Local Action Plans (max 15 minutes)

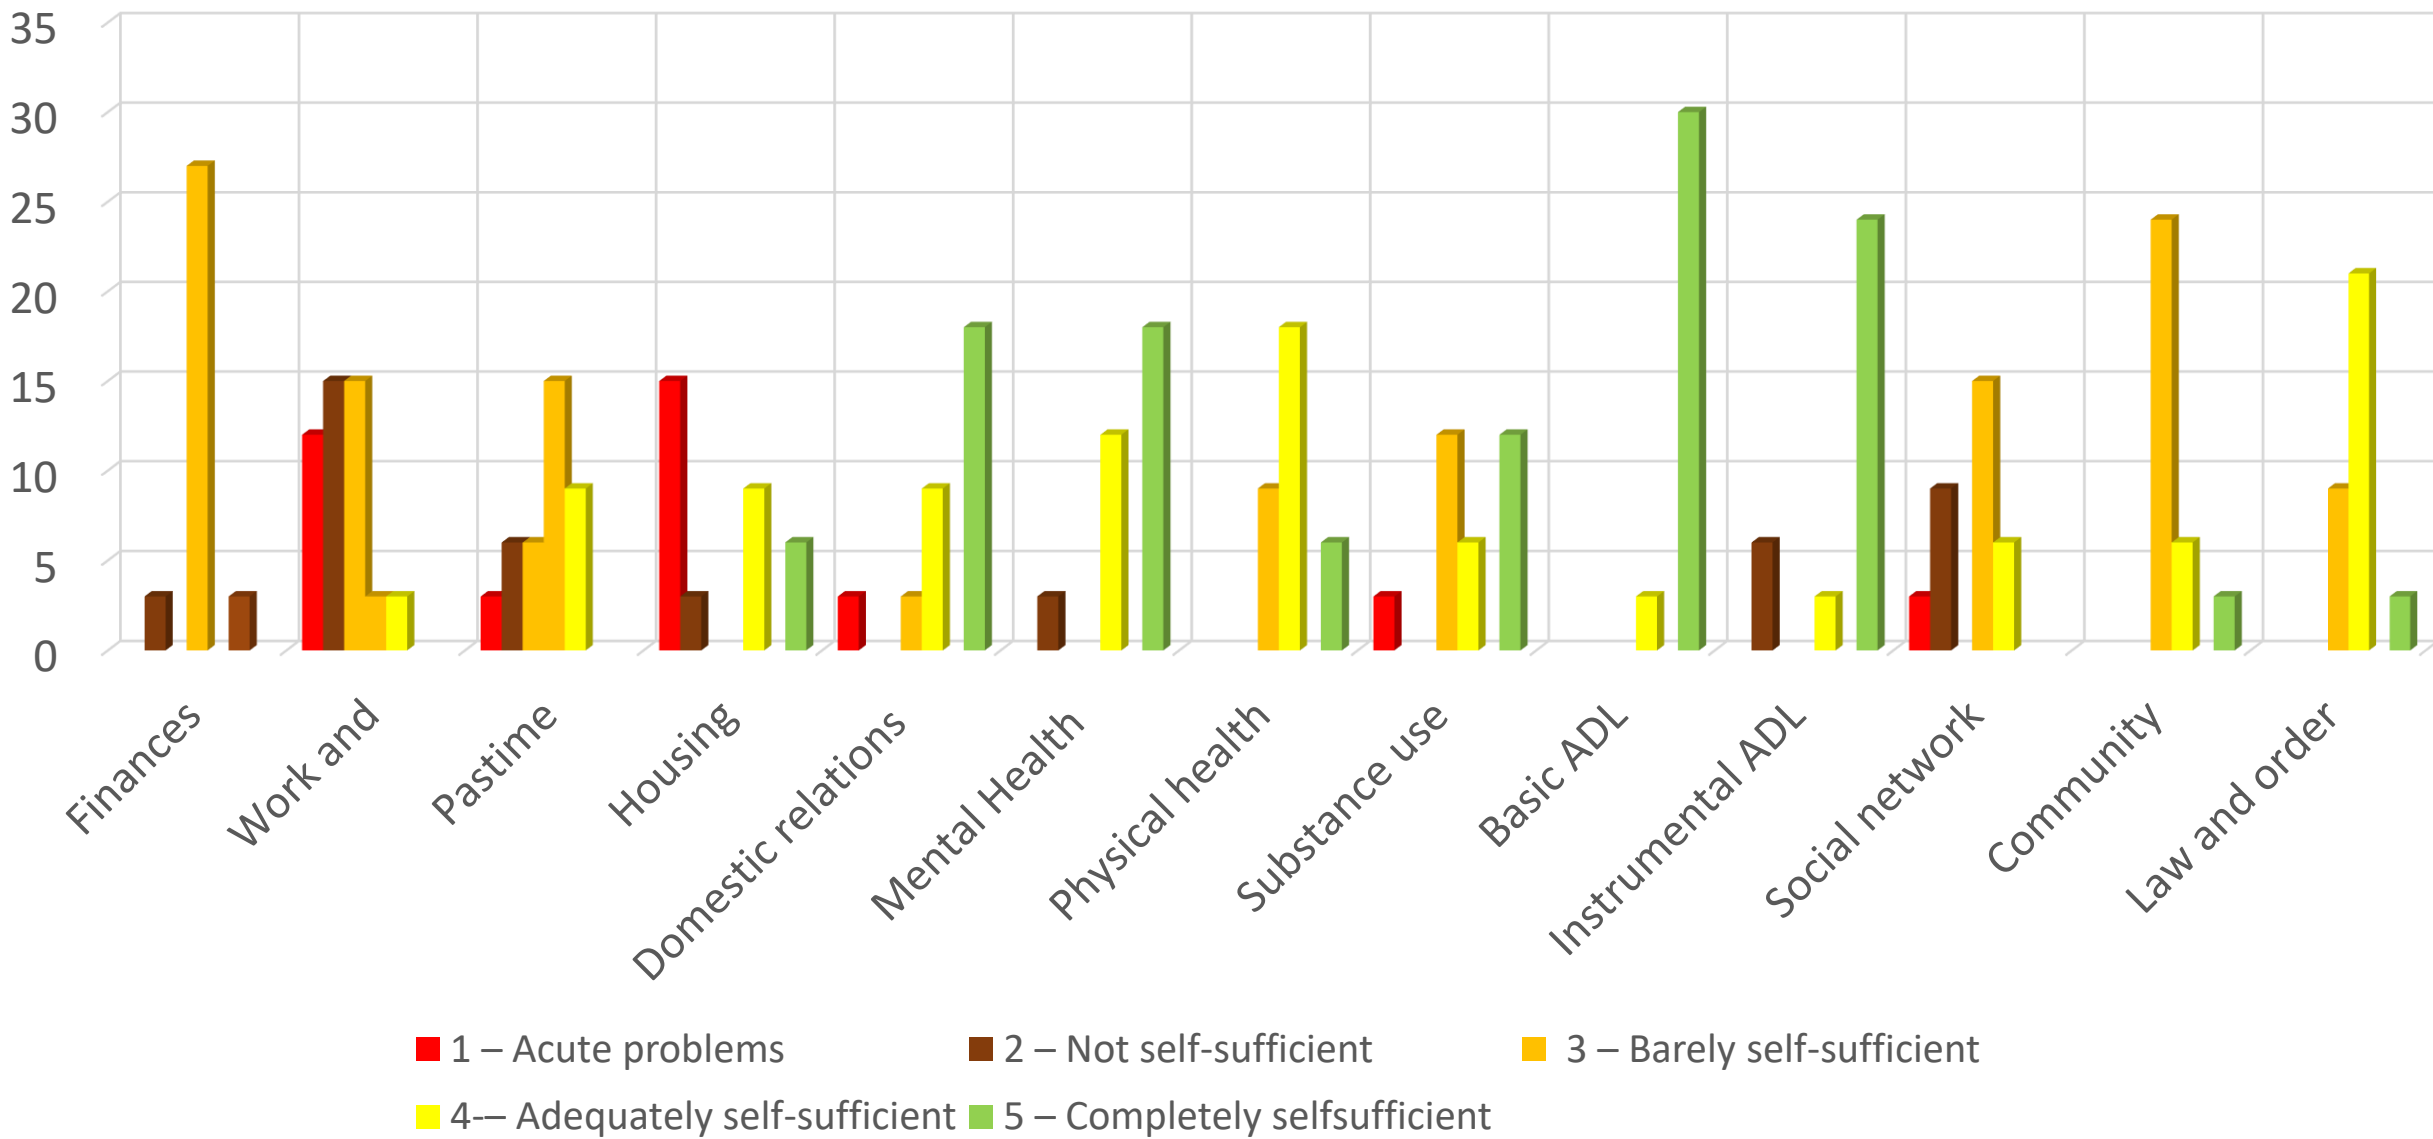

# Local Action Plan Update

- 33 total screenings with SSM
  - 3 of them are three client of CIBE who joined the HF program.
  - 30 clients of CIBE
- All registers are 6 month pre-post
- Progress of women is slower than men. Their situation at the starting point is worst.
- Several cases of women deteriorate after starting relationships.
- 3 clients in HF flats. 2 in a duplex and one in an individual flat.
  - All in abstinence. 2 in treatment, all of them are monitored also at CIBE.

# START

# AFTER 6 MONTH

# Qualitative data (nuisance)

- For this October we plan to carry out 2 interviews: red cross coordinator (entity in field work) & a social services responsible of the town (admin).
- Additionally, Belen (CIBE's director) can help with the historical description of nuisance related with drug consumption and homelessness.
- We can't use experience and voice of the heads of police or cleaning services because they are in charge too little time ago.

# Timeline

- October'18: Starting to write down the report. Qualitative interviews.
- November'18: Transcription and analysis of qualitative interviews.
- December'18: Finishing the report.
- January'18: Report review.
